C1 Grammar

Inversion for emphasis

Using 'Never have I...', 'Not only...' and 'Little did they...' in formal writing.

After certain negative or restrictive expressions placed at the start of a sentence, English inverts the subject and auxiliary, as in a question. This adds emphasis and a formal tone.

Opening expression	Example
Never / Rarely / Seldom	*Rarely have I seen such dedication.*
Not only … but also	*Not only did she win, but she also broke the record.*
Hardly / Scarcely … when	*Hardly had we arrived when it started to rain.*
No sooner … than	*No sooner had he sat down than the phone rang.*
Little	*Little did they know what was coming.*
Only then / Only after / Only when	*Only when I left did I realise my mistake.*
Under no circumstances	*Under no circumstances should you open this door.*

Need an auxiliary? If the normal sentence has no auxiliary, add *do / does / did*: *She rarely complains* becomes *Rarely does she complain.*

With 'only', the inversion is in the main clause. *Only after the meeting did I understand*, not *Only after did the meeting I understand.*

Practice

1. I have never been so embarrassed. → Never ___
2. He didn't know that he was being followed. → Little ___
3. As soon as she got home, she fell asleep. → No sooner ___
4. You must not tell anyone. → Under no circumstances ___
